Help others with their mental wellbeing

This program helps you understand why people think, feel and behave certain ways. Explore the professional practice of psychology, including cognitive, social, perceptual, physiological, intercultural, Indigenous and abnormal psychologies.

In the final year of study, you'll have the opportunity to learn about a specific area of interest when you undertake an advanced research project.

The training is scientifically and ethically based to teach you types of behaviour, examine personality and to do formal personality assessments.

In this program you will:

- Learn from award-winning psychology staff who work in the field
- Undertake an advanced research project
- Gain high-level statistical and research skills

Career opportunities

- Public health system (in hospitals)
- Private health system (hospitals and clinics)
- Non-government community organisations
- Correction services
- Child protection services
- Private practice

Accreditation
