Semester 1, Semester 2

The first of its kind in Queensland, this program teaches the skills to work with people, engaging them in active lifestyles and helping them appreciate nature. This program gives you a broad, versatile education in outdoor environmental studies. In addition, you will study one of two major areas, health and physical education or marine science.

In this program you will:

- Attend more than 35 outdoor environmental studies fieldwork days in the Sunshine Coast area, including K'gari
- Become equipped with skills, knowledge, and experience to journey safely with participants in a range of environments, observing human relationships with nature
- Select from areas including tourism management, restoration and conservation, indigenous studies, sustainability, or biological science
