

Management of Contracts and Memoranda of Understanding (MOUs) - Procedures

1. Purpose of procedures

1.1 These procedures specify the requirement and processes associated with the Management of Contracts and Memoranda of Understanding (MOUs) – Governing Policy and should be read in conjunction with that policy.

2. Definitions

Refer to the University's Glossary of Terms for definitions as they specifically relate to policy documents.

Agreement includes each of Contracts, Deeds and MOUs.

Contract means an agreement between parties intended to have legal significance and involving the transfer of consideration (that is, value – financial or some other type of benefit - flowing from the beneficiary of the transaction). Contracts generally articulate business relationships for the acquisition or supply of goods or services, for the exploitation or transfer of intellectual property rights (e.g. licences) or for the provision of funding.

Deed means a form of legally binding agreement that requires a high degree of formality for its creation. Execution of an Agreement as a deed may occur under seal or by signing and delivery by a duly authorised signatory and ensures that the specified terms and conditions are legally enforceable, even in the absence of consideration. If the University Seal is required to be used for execution purposes it must be used and affixed to a deed in accordance with the University's Use of the University Seal – Governing Policy.

Memorandum of Understanding (MOU) means a document that is intended to formalise the terms of a relationship, arrangement or understanding between the University and another party, but unless otherwise specified is not intended to be legally binding on either party. An MOU may lead to the development of separate contracts with legal intent.

3. University agreements

3.1 It is vital that there is a clear understanding of the type of Agreement that is being entered into, i.e. Deed, Contract or Memorandum of Understanding, to ensure the appropriate procedures are followed.

4. Managing risk in University agreements

4.1 The following table is provided to assist in managing the risks in executing an Agreement on behalf of the University. The Agreement Manager (refer to section 7) must ensure the Contract Approval Cover Sheet is completed, signed and provided to the appropriately delegated officer with responsibility to execute the Agreement.

2. Is the Agreement necessary in order for the University to receive the intended benefits?
