

Bachelor of Midwifery

LOCATION	ENTRY THRESHOLD	QTAC CODE	START
Sunshine Coast	88.00	013471	Semester 1

Support the journey of pregnancy, birth and beyond. Prepare to work as a registered midwife, giving women necessary support and care during pregnancy, labour and the postpartum period. Gain a strong understanding of the social, cultural, spiritual, psychological and physical experiences of women to provide quality maternity care.

In this program you will:

- Learn how to provide woman-centred, evidence-based care to women and their families
- Understand midwifery care across the childbearing continuum, legal and ethical requirements, bioscience and anatomy and physiology, research and evidenced based practice
- Learn midwifery skills in a simulated environment with state-of-the-art technology
- Gain practical experience through placements at clinics, maternity services, and private midwifery practices

Career opportunities

- Registered midwife in hospital or community settings
- Metropolitan, rural and remote locations
- Private practice midwife
- Midwifery educator and researcher

Accreditation

Graduates are eligible to apply for registration as a midwife in Australia with the Nursing and Midwifery Board of Australia, which is a Board of the Australian Health Practitioner Regulation Agency (AHPRA). The Nursing and Midwifery Board of Australia has a number of registration standards that graduates must demonstrate in order to be eligible for registration. For example, graduates must demonstrate English language skills at IELTS level 7, with 7 in all subtests, or equivalent before being considered for professional registration. For full details of the AHPRA Registration Standards, visit the Nursing and Midwifery Board of Australia website.

Post admission requirements

Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, provide evidence of hepatitis B and a number of other immunisations, undergo a criminal history check and obtain a Blue Card. Refer to clinical placement details for more information.

Program special requirements

Students who meet the following criteria are required to take the Clinical Connections module (CCM):

- Those who have transferred from another university with credit for a clinical (midwifery practice) course.
- Those who have undertaken HLT312 Midwifery Internship but subsequently failed the course.
- The connect component of the program must be suspended if a midwifery practice course has not been completed in the preceding 12-month period. Connect activity may

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 9 May 2024

Study options and teaching period of offer can vary depending on the study location. For full details, visit usc.edu.au.

recommence once the scenario based clinical exam in the respective midwifery practice course, or the CCM, is successfully completed.

- The connect component of the program must be suspended if a midwifery practice course is failed. Connect activity may recommence once the scenario based clinical exam in the respective midwifery practice course is successfully completed.

Completion of the Clinical Connections module formalises reintroduction to theory and supported practice, and ensures that students can proceed to clinical placement and meet NMBA professional standards relevant to practice at their level of study.

Program structure

Introductory courses (8) 96 units
