

Master of Health Promotion

LOCATION

Online

START

Semester 1, Semester 2

Foster healthy, safe and supportive environments and communities, and positively influence the health and well-being of people. Strengthen community action to save healthcare costs and lives and master topics such as population health, Indigenous well-being, and health promotion practice and build your research skills. Become a work-ready health promotion professional.

In this program you will:

- Prepare for careers that contribute towards safe, stimulating and enjoyable working and living conditions
- Study in one of a few masters' programs in Australia focused exclusively on Health Promotion
- Learn from leading academics, be involved in research, and study in workplace scenarios
- Study foundations and principles of public health; assessing health and well-being assets and needs, planning, implementing and evaluating health promotion programs, epidemiology, research methods and more
