1. Purpose of policy
This policy identifies the requirements for reviews and self-reviews of committees and
Boards at the University of the Sunshine Coast.

2. Policy scope and application
This policy relates to reviews and self-reviews of various committees or boards at the
University of the Sunshine Coast.

3. Definitions
Please refer to the University’s Glossary of Terms for policies and procedures. Terms and
definitions identified below are specific to this policy and are critical to its effectiveness:

Portfolio Manager means the Vice-Chancellor and President.
Review Leader means the Chairperson of the Academic Board.
Review Officer is the Director, Governance and Risk Management

4. External reviews—rationale and frequency
4.1 External reviews are intended to contribute to identification and implementation of
changes, developments and improvements that could be made in relation to a committee/board in order to strengthen its effectiveness.

4.2 An external review of the Academic Board (the Board) and its Standing Committees (Committees) will be held at least every five years.

4.3 External reviews of other University boards/committees as mandated by any external authority or legislation or as required by the terms of reference of a board/committee or as initiated by the Council, the Academic Board, or the Vice-Chancellor and President, or a Deputy Vice-Chancellor or a Pro Vice-Chancellor will be held consistent with any requirements of the relevant external or internal review-initiating authority or relevant terms of reference or legislation.

5. External review of Academic Board and its Standing Committees
5.1 Each external review of the Academic Board and its Standing Committees will be undertaken by a review panel, appointed by the
Vice-Chancellor and President, the membership of which will comprise persons with no formal association with the Academic Board or the
University.

5.2 The Academic Board will develop proposed terms of reference for each external review of the Board and its Standing Committees and
recommend the proposed terms of reference to the Vice-Chancellor and President for approval by the relevant milestone date as published in
the University’s latest review schedule.

5.3 The terms of reference for the review must make clear that the review panel will undertake an evidence-based evaluation of the extent and
effectiveness of the Board’s and Committee’s activities. This will include:

(i) how operations and outcomes contribute to achievement of the University’s strategic academic objectives and targets;
(ii) whether practices and processes are consistent with higher education sector norms and expectations; and
(iii) how they contribute to the University’s ongoing compliance with the Higher Education Standards Framework and other relevant external
legislation or other requirements.

5.4 The review panel will provide independent advice and recommendations, derived from the evaluation, to assist the University, the Board
and the Committees in identifying:

(i) strengths, good practices and processes, and positive outcomes in recent years;
(ii) areas in which the Board’s and Committees’ purposes, roles, functions, responsibilities, composition, practices, processes and outcomes
should be changed, enhanced or improved; and
(iii) areas in which support for the Board and Committees should be changed, enhanced or improved, including in relation to practice in other
Australian universities.
5.5 For each review, the Board and the Committees will develop and provide a response to the panel’s review findings, an action plan to address review recommendations, six-monthly progress reports and a final report on implementation of the action plan.

5.6 Each external review of the Board and the Committees should be undertaken consistent with procedures or guidelines for such reviews developed and approved by the Academic Board from time-to-time.

6. Self-reviews of committees/boards
6.1 The purpose of a committee/board self-review is to provide opportunity for the body to identify ways and means by which it may become more effective in performing its roles and to identify and implement any improvement actions or processes.

6.2 Where the terms of reference for a committee/board include a requirement for self-review of the relevant body, the self-review will be held in accordance with the relevant terms of reference and any self-review procedures or guidelines developed by the relevant body for its own self-review.

6.3 Where the terms of reference do not include a requirement for self-review, committees/boards are encouraged to undertake a self-review at least every two-years.
