

1. Application for study assistance

The intention to apply for study assistance should be discussed and agreed as part of Performance Planning and Review (PPR). An Application Form is then completed by the staff member and forwarded to the Cost Centre Manager who will assess the relevance of the proposed program to the applicant's development and the University's/work area's needs.

Approval of study assistance is at the discretion of the applicant's Cost Centre Manager. Applications, recommended and authorised by the Cost Centre Manager, are forwarded to the Director, Human Resources for verification of compliance with University policy and final approval. The Director, Human Resources notifies the applicant and the Cost Centre Manager in writing whether or not the application has been finally approved.

Approval of a program of study operates for the entire period of the program, subject to satisfactory progress in study as well as in performance of duties. Therefore, once initial approval is given for a program of study, applications for approval each semester/term are not required provided the program and educational institution remain the same.

2. Application to change program or category

If a staff member proposes to change the institution at, or program in, which they are studying, a new application is required. The staff member needs to demonstrate how this change will benefit their development and the University more than continuation in the current program.

A staff member may seek to transfer assistance to another category at any stage of an approved program of study, subject to the conditions of the category concerned.

Applications for program change or transfer of category must be supported by the Cost Centre Manager, and forwarded to the Director, Human Resources for verification and final approval.

3. Financial assistance

Financial assistance can be provided to reimburse the staff member for specified costs incurred to undertake the study. For part-time staff, financial assistance is provided on a pro rata basis. For example, a staff member who is employed on a 50 per cent time fraction is entitled to receive half of the approved financial assistance (and half of the leave) available to full-time staff members.

The Cost Centre Manager approves applications for reimbursement of fees as the Cost Centre meets the cost of reimbursement.

3.1 Conditions of fee reimbursement

Reimbursement of fees for all categories is subject to the following conditions:

3.1.1 Fees will only be reimbursed in cases where prior approval has been granted. Reimbursement for study undertaken prior to the date of approval will not be supported.

3.1.2 Fees will only be reimbursed for courses/units of study passed. A staff member must furnish receipts for fees paid and evidence of satisfactory performance in courses/units where reimbursement of fees is claimed i.e. copy of results, supervisor's statement.

3.1.3 Reimbursement of fees is available only where staff undertake approved study for the majority of a prescribed educational period eg. a semester or term.

3.1.4 A staff member holding a scholarship/award which provides payment of fees will only be reimbursed for fees not met by the scholarship/award.

3.2 Levels of fee reimbursement

Where study programs have been approved and the above conditions have been satisfied, reimbursements will apply as follows:

Preparation of masters and doctoral theses

Costs of preparation of masters and doctoral theses can only be subsidised if the approved educational institution in which the staff member is enrolled does not provide a subsidy for the preparation of the thesis. With the approval of the Cost Centre Manager, a staff member can be reimbursed up to \$100.00 for the printing and binding of the final thesis.
