

COURSE OUTLINE

BIM341 Biochemical Pharmacology

Course Coordinator: Fraser Russell (frussell@usc.edu.au) **School:** School of Health and Behavioural Sciences

2021 | Semester 1

USC Sunshine Coast

ON CAMPUS

Most of your course is on campus but you may be able to do some components of this course online.

Please go to the USC website for up to date information on the teaching sessions and campuses where this course is usually offered.

1. What is this course about?

1.1. Description

This course will introduce you to the specialist field of pharmacology, with a strong emphasis on the underlying biochemical principles of drug action. You will explore the application of drugs/drug therapy used to treat diabetes, hypertension, cancer, anxiety and depression.

1.2. How will this course be delivered?

ACTIVITY	HOURS	BEGINNING WEEK	FREQUENCY
ON CAMPUS			
Lecture – Online lecture content	2hrs	Week 1	13 times
Tutorial/Workshop – Online via zoom	1hr	Week 3	6 times
Laboratory – On campus	3hrs	Week 2	6 times

1.3. Course Topics

Week 1: Introduction; receptors; pharmacodynamics

Week 2: Pharmacokinetics (Part 1)

Week 3: Pharmacokinetics (Part 2)

Week 4: Cancer chemotherapy

Week 5: Antihypertensive drugs

Week 6: Anti-viral drugs

Week 7: Hypoglycaemic drugs

Week 8: Immunomodulatory drugs

Week 9: Personalised medicine

Week 10: Drug Discovery (Part 1)

Week 11: Drug Discovery (Part 2)

Week 12: Anxiolytic agents and antipsychotic drugs

Week 13: Antidepressant drugs

2. What level is this course?

300 Level (Graduate)

Demonstrating coherence and breadth or depth of knowledge and skills. Independent application of knowledge and skills in unfamiliar contexts. Meeting professional requirements and AQF descriptors for the degree. May require pre-requisites where discipline specific introductory or developing knowledge or skills is necessary. Normally undertaken in the third or fourth full-time study year of an undergraduate program.

3. What is the unit value of this course?

12 units

4. How does this course contribute to my learning?

COURSE LEARNING OUTCOMES	GRADUATE QUALITIES
On successful completion of this course, you should be able to...	Completing these tasks successfully will contribute to you becoming...
1 Demonstrate and apply knowledge of the basic principles & concepts of biochemical pharmacology to familiar and unfamiliar metabolic pathways	Knowledgeable
2 Solve problems by using evidence-based reasoning, and where appropriate, mathematical calculations.	Creative and critical thinker
3 Communicate scientifically in the form of a problem set and poster, with reference to the literature.	Empowered

5. Am I eligible to enrol in this course?

Refer to the [USC Glossary of terms](#) for definitions of “pre-requisites, co-requisites and anti-requisites”.

5.1. Pre-requisites

MBT251 or LFS251

5.2. Co-requisites

Not applicable

5.3. Anti-requisites

MBT351

5.4. Specific assumed prior knowledge and skills (where applicable)

Not applicable

6. How am I going to be assessed?

6.1. Grading Scale

Standard Grading (GRD)

High Distinction (HD), Distinction (DN), Credit (CR), Pass (PS), Fail (FL).

6.2. Details of early feedback on progress

Students will complete a Problem Set and submit this to Blackboard Safe Assign by 4.00 pm Monday Week 4. The task will consolidate learning activities on pharmacokinetics included within the Week 2 and Week 3 lectures and the Week 2 laboratory class. The assignment is worth 20% of the overall grade. Formative feedback will be provided to students in the laboratory and summative feedback will be provided to students within 2 weeks of the submission date.

6.3. Assessment tasks

DELIVERY MODE	TASK NO.	ASSESSMENT PRODUCT	INDIVIDUAL OR GROUP	WEIGHTING %	WHAT IS THE DURATION / LENGTH?	WHEN SHOULD I SUBMIT?	WHERE SHOULD I SUBMIT IT?
All	1	Artefact - Technical and Scientific	Individual	20%	500 words	Week 4	Online Assignment Submission with plagiarism check
All	2	Artefact - Technical and Scientific	Individual	30%	A0 size poster as a pdf file	Week 8	Online Assignment Submission with plagiarism check
All	3	Examination - Centrally Scheduled	Individual	50%	2 hours (<1500 words)	Exam Period	Online Assignment Submission

All - Assessment Task 1: Problem Set

GOAL:	The goal of this task is to allow you to demonstrate your problem solving skills in relation to the study of pharmacokinetics. This question set is related to questions that will be on the end-of-semester exam.		
PRODUCT:	Artefact - Technical and Scientific		
FORMAT:	Answers, with working, to 10 problems on a worksheet		
CRITERIA:	No.		Learning Outcome assessed
	1	Solve problems by using evidence-based reasoning, and where appropriate, mathematical calculations; Communicate scientifically in the form of a problem set	
	2	Assessment criteria are mapped to the course learning outcomes.	1 2 3

All - Assessment Task 2: Poster

GOAL:	In this task you will research a topic from a list provided by the course coordinator. You will prepare a scientific poster to communicate your research.		
PRODUCT:	Artefact - Technical and Scientific		
FORMAT:	A0 Size poster. Students are to select a topic for their poster from a list that is provided by the course coordinator, and to prepare an A0-size poster. A library tutorial will be provided in Week 2 to assist students with strategies for searching the literature.		
CRITERIA:	No.		Learning Outcome assessed
	1	Students are to select a topic for their poster from a list that is provided by the course coordinator, and to prepare an A0-size poster. A library tutorial will be provided in Week 6 to assist students with strategies for searching the literature.	
	2	Posters will be assessed on scientific content and presentation, in accordance with a rubric that is provided within the laboratory manual.	
	3	Posters will be projected onto a screen in the Week 12 laboratory class where students will have the opportunity to present and discuss their poster. The oral presentation will not form part of the assessment	

All - Assessment Task 3: Final exam

GOAL:							
PRODUCT:	Examination - Centrally Scheduled						
FORMAT:	Multiple choice questions, problem solving, calculations based on material from lectures, tutorials and laboratory activities up to and including Week 13.						
CRITERIA:	<table border="1"><thead><tr><th>No.</th><th></th><th>Learning Outcome assessed</th></tr></thead><tbody><tr><td>1</td><td>Accuracy of the basic principles and concepts of Biochemical Pharmacology; Solve problems by using evidence-based reasoning, and where appropriate, mathematical calculations.</td><td></td></tr></tbody></table>	No.		Learning Outcome assessed	1	Accuracy of the basic principles and concepts of Biochemical Pharmacology; Solve problems by using evidence-based reasoning, and where appropriate, mathematical calculations.	
No.		Learning Outcome assessed					
1	Accuracy of the basic principles and concepts of Biochemical Pharmacology; Solve problems by using evidence-based reasoning, and where appropriate, mathematical calculations.						

7. Directed study hours

A 12-unit course will have total of 150 learning hours which will include directed study hours (including online if required), self-directed learning and completion of assessable tasks. Directed study hours may vary by location. Student workload is calculated at 12.5 learning hours per one unit.

8. What resources do I need to undertake this course?

Please note: Course information, including specific information of recommended readings, learning activities, resources, weekly readings, etc. are available on the course Blackboard site– Please log in as soon as possible.

8.1. Prescribed text(s) or course reader

Please note that you need to have regular access to the resource(s) listed below. Resources may be required or recommended.

REQUIRED?	AUTHOR	YEAR	TITLE	PUBLISHER
Required	Rang and Dale	2019	Rang and Dale's Pharmacology	Churchill Livingstone
Required	Garrett and Grisham	2017	Biochemistry,	Cengage Learning

8.2. Specific requirements

Laboratory coat, safety glasses, closed in footwear, calculator.

9. How are risks managed in this course?

Risk assessments have been performed for all laboratory classes and a low level of health and safety risk exists. Some risk concerns may include equipment, instruments, and tools; as well as manual handling items within the laboratory. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Blackboard, are electronically checked through SafeAssign. This software allows for text comparisons to be made between your submitted assessment item and all other work that SafeAssign has access to.

10.2. Assessment: Additional Requirements

Eligibility for Supplementary Assessment

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

The final mark is in the percentage range 47% to 49.4%

The course is graded using the Standard Grading scale

You have not failed an assessment task in the course due to academic misconduct

10.3. Assessment: Submission penalties

Late submission of assessment tasks may be penalised at the following maximum rate:

- 5% (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task.

- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.

- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task. Weekdays and weekends are included in the calculation of days late. To request an extension you must contact your course coordinator to negotiate an outcome.

10.4. Study help

For help with course-specific advice, for example what information to include in your assessment, you should first contact your tutor, then your course coordinator, if needed.

If you require additional assistance, the Learning Advisers are trained professionals who are ready to help you develop a wide range of academic skills. Visit the [Learning Advisers](#) web page for more information, or contact Student Central for further assistance: +61 7 5430 2890 or studentcentral@usc.edu.au.

10.5. Wellbeing Services

Student Wellbeing provide free and confidential counselling on a wide range of personal, academic, social and psychological matters, to foster positive mental health and wellbeing for your academic success.

To book a confidential appointment go to [Student Hub](#), email studentwellbeing@usc.edu.au or call 07 5430 1226.

10.6. AccessAbility Services

Ability Advisers ensure equal access to all aspects of university life. If your studies are affected by a disability, learning disorder mental health issue, injury or illness, or you are a primary carer for someone with a disability or who is considered frail and aged, [AccessAbility Services](#) can provide access to appropriate reasonable adjustments and practical advice about the support and facilities available to you throughout the University.

To book a confidential appointment go to [Student Hub](#), email AccessAbility@usc.edu.au or call 07 5430 2890.

10.7. Links to relevant University policy and procedures

For more information on Academic Learning & Teaching categories including:

- Assessment: Courses and Coursework Programs
- Review of Assessment and Final Grades
- Supplementary Assessment
- Administration of Central Examinations
- Deferred Examinations
- Student Academic Misconduct
- Students with a Disability
