The learning agreement is developed in three stages.

- Stage two: the agreement is finalised after the liaison visit with the Social Work Supervisor / Agency Supervisor and the student in approximately week six.
- Stage three: the completed learning agreement that includes the learning outcomes is uploaded to Sonia for the Liaison Officer with the Field Education Assessment Report and the Hours Verification in the last week of placement.

Details of the learning agreement, including the required format is provided to you separately in your Field Education Manual and as a template via Sonia. You are expected to consult with your Social Work Supervisor / Agency Supervisor in the agency in the development of this plan and also with the University Field Education staff should you need further assistance.

Your professional performance will be assessed in the mid/final placement report with your supervisor(s) and liaison officer.

10.1 **Assessment: Academic Integrity**

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Blackboard, are electronically checked through SafeAssign. This software allows for text comparisons to be made between your submitted assessment item and all other work that SafeAssign has access to.
