

Design

the cities and places
of the future

Bachelor of Urban Design and Town Planning

Urban designers and town planners create precincts and spaces that bring people together, and connect communities to the places around them. Set yourself apart with a specialist degree in urban design – the only undergraduate degree of its kind accredited by the Planning Institute of Australia.

- Learn how to manage urban growth and plan for sustainable development
- Study how town planning relates to politics, economics and the law
- Explore how to design safe, healthy and vibrant urban places
- Understand the impacts of a changing climate on the places we live, work and play
- Focus on the planning needs and challenges of diverse communities and regions
- Get practical experience through at least 160 hours of supervised professional work

Scholarships

USC offers scholarships specifically for planning students, including the Vantage Holdings and UDIA Regional and Urban Planning Bursary. Find out more about USC scholarships and how to apply.
