

Broaden your managerial **skills**

Master of **Business Administration (Extended)**

In today's business world, the demands of management require you to have an increasing range of skills in all facets of business. You learn to integrate knowledge and skills across functions and disciplines, and focus on the application of theory and execution of practice.

The Master of Business Administration (Extended) program includes courses that explore current business issues and the opportunity to complete a specialisation in Supply Chain Management, International Business, Health Sector Business Management, Entrepreneurship and Innovation Management, Management or Marketing.

Admission requirements

To be considered for admission candidates would normally be required to:

- possess an undergraduate degree from a recognised higher education institution or equivalent; and
- candidates whose first language is other than English must demonstrate an appropriate level of English proficiency. Refer to the English language requirements

Successful completion of the Graduate Certificate in Business Administration will qualify the candidate for entry into the Master of Business Administration (Extended) for completion of the remaining courses.

Career opportunities

Graduates of Master of Business Administration (Extended) program work in a diverse range of roles in industry and public sector organisations.
