

P

## ROAD SAFETY TIPS

# Passengers of young drivers

### Young drivers need your help:

- If you don't like the way the young driver is behaving, you have different options:
  - tell them you are not comfortable with the way they are driving,
  - tell them to let you out of the car, or
  - tell them you are going to spew if they don't stop
- If you didn't like the way the young driver behaved last time you travelled with them, you have options:
  - don't travel with them,
  - seek safety in numbers, and
  - never ride with an intoxicated driver (drugs or alcohol).
- Never let your friend drive or ride after drinking alcohol or taking drugs.
