

# Bachelor of Health Science

Sunshine Coast, Semester 2 2022

## Program structure

Introductory courses (7) 84 units

HLT140 Think Health  
HLT150 Indigenous Wellbeing Foundations  
LFS103 Introductory Bioscience  
PUB102 Environment, Climate and Health  
PUB104 Introduction to Behavioural Health  
PUB112 Public Health Foundations  
SCI110 Science Research Methods

Developing courses (1) 12 units

HLT205 Health Research and Evidence

Extended majors (144 units)

Select 1 extended major (144 units) from:

- Applied Environmental Health
- Applied Health Promotion
- Health Communication
- Indigenous Health and Wellbeing

Elective courses (4) 48 units

Select a total of 48 units from the undergraduate elective course options, with the exception of WPL310 Workplace Learning I and WPL320 Workplace Learning II

Note for students enrolled in the Applied Environmental Health extended major:

You are required to undertake a cross institutional course, 3202MED Applied Environmental Health, at Griffith University, in place of a 12 units elective. If the cross institutional course is not completed students will not graduate meeting requirements for External Accreditation as outlined by Environmental Health Australia (EHA). It is recommended that students complete 3202MED Applied Environmental Health, prior to undertaking PUB305 Public Health Practicum. You are encouraged to consider courses from the following list when selecting remaining electives. Only one (1) elective course can be at 100 level to meet program requirements.

ENS253 Geographic Information Science and Technology  
INT203 Power, Politics and the Media  
PUB252 Health Promotion Assessment and Planning  
HRM311 Enabling Team Synergy and Performance

Note for students enrolled in the Applied Health Promotion extended major:

You are encouraged to consider courses from the following list when selecting electives however, only one (1) elective course can be at 100 level to meet program requirements.

SUS101 Foundations of Sustainability - Investigating Planetary Health  
CMN231 Communication Campaign Planning  
CMN276 Social Media Communication  
SCS201 International Development and Global Justice  
SCS235 Social Justice, Welfare and the State  
HRM311 Enabling Team Synergy and Performance

Note for students enrolled in the Health Communication extended major:

[usc.edu.au/sc367](http://usc.edu.au/sc367)

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 21 September 2024  
Study options and teaching period of offer can vary depending on the study location. For full details, visit [usc.edu.au](http://usc.edu.au).

You are encouraged to consider courses from the following list when selecting electives however, only one (1) elective course can be at 100 level to meet program requirements.

SUS101 Foundations of Sustainability - Investigating Planetary Health  
CMN204 Social Media: Content Curation and Creation  
CMN252 Writing for Strategic Communication  
HLT242 Indigenous Wellbeing Practice  
INT203 Power, Politics and the Media  
HRM311 Enabling Team Synergy and Performance

Note for students enrolled in the Indigenous Health and Wellbeing extended major:

You are encouraged to consider courses from the following list when selecting electives. Only one (1) elective course can be at 100 level to meet program requirements.

SUS101 Foundations of Sustainability - Investigating Planetary Health  
INT203 Power, Politics and the Media  
PUB210 Concepts of Epidemiology  
PUB272 Healthy Public Policy and Advocacy  
SCS235 Social Justice, Welfare and the State  
HRM311 Enabling Team Synergy and Performance

Note: Program structures are subject to change. Not all UniSC courses are available on every UniSC campus.

**Total units: 288**

## Study sequence

This Bachelor of Health Science - Health Communication Extended Major - recommended study sequence is for students commencing in the current semester.

### Semester 2

| COURSE                                  | SEMESTER OF OFFER<br>(SUNSHINE COAST) | UNITS | REQUISITES   |

PLUS select 2 elective courses from the undergraduate elective course options.

## Program requirements and notes

In order to graduate you must:

- Successfully complete 288 units as outlined in the Program Structure
- For Sippy Downs students some courses in this program will be taught at the Sunshine Coast Health Institute
- Complete no more than 10 introductory level (100 coded) courses
- As part of the 48 units (4 courses) Elective requirements students enrolled in SC367 Bachelor of Health Science who have a registered Applied Environmental Health Extended Major are required to undertake a cross institutional course, 3202MED Applied Environmental Health, at Griffith University, in place of a 12 unit (1 course) Elective. If the cross institutional course is not completed students will not graduate meeting requirements for External Accreditation as outlined by Environmental Health Australia (EHA). It is recommended that students complete 3202MED Applied Environmental Health, prior to undertaking PUB305 Public Health Practicum.

### Program notes

- Completing this program within the specified (full-time) duration is based on studying 48 unit points per semester (normally 4 courses) and following the recommended study sequence
- The unit value of all courses is 12 units unless otherwise specified
- It is each students responsibility to enrol correctly according to your course requisites, program rules and requirements and be aware of the academic calendar dates
- For Sippy Downs students some courses in this program will be taught at the Sunshine Coast Health Institute
- Courses within this program are assessed using a variety of assessment methods including essays, seminar presentations, reports, in-class tests and examinations. Not all courses will necessarily include all methods
- As part of your UniSC program, you may apply to Study Overseas to undertake courses with an overseas higher education provider
- Only a full-time study option is available to international students on a Student Visa. Please refer to the English language requirements
- Refer to the Managing your progression page for help in understanding your program structure, reviewing your progress and planning remaining courses.

### WIL notes

- For students enrolled in the Environmental Health extended major this program includes compulsory placements in settings that require full COVID-19 vaccination.
- It is a Queensland Government requirement that students undertaking a placement within a clinical setting are fit tested annually for an approved respirator. Clinical settings include hospitals, residential aged care facilities, residential disability care facilities, prison health services, youth detention health services, community health care settings, and vaccination clinics). If the Fit Testing requirement applies to placement activity within your Program it will appear in your mandatory checks on Sonia Online. In accordance with Australian Standards, you must be clean shaven for your fit test. Facial hair that lies along the sealing surface of a tight-fitting respirator prevents an effective seal. Therefore, it is a requirement that there is no hair growth between the skin and the facepiece sealing surface in order to achieve a fit. At this stage, there is no exemption in Queensland to this requirement for religious or other reasons and UniSC is unable to waive this requirement.
- Refer to Health Science and Health Promotion - Work Practicums
