Program requirements and notes

In order to graduate you must:

- Successfully complete 288 units as outlined in the Program Structure

Students who meet the following criteria are required to take the Clinical Connections module before they can commence in a clinical placement course in any given year of study:

- Those who have passed a preparation for practice course but subsequently failed the clinical placement course.
- Those who have transferred from another university with credit for a preparation for practice course but not the clinical placement course.
- Those who have taken a break from their study for two or more consecutive semesters (including students transferring from another university with credit).
- Those who have withdrawn from a clinical placement course prior to census date or have withdrawn retrospectively and have not completed a preparation for practice course within 12 months.

Completion of the Clinical Connections module formalises reintroduction to theory and supported practice, and ensures that students can proceed to clinical placement and meet NMBA professional standards relevant to practice at their level of study.

Program notes

- Completing this program within the specified (full-time) duration is based on studying 48 unit points per semester (normally 4 courses) and following the recommended study sequence
- The unit value of all courses is 12 units unless otherwise specified
- It is each student's responsibility to enrol correctly according to your course requisites, program rules and requirements and be aware of the academic calendar dates
- For Sippy Downs students some courses in this program will be taught at the Sunshine Coast Health Institute
 - Preparing for study at SCHI
- Courses within this program are assessed using a variety of assessment methods which may include essays, seminar presentations, reports, in-class tests and examinations
- Only a full-time study option is available to international students on a Student Visa

usc.edu.au/sc391

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 8 February 2025
Study options and teaching period of offer can vary depending on the study location. For full details, visit usc.edu.au.

- International students on a Student visa please note:
 - Currently NUR272, NUR302, NUR332 and the elective course (NUR312, HLT206 and HLT303) are ONLY offered via online mode. You may enrol in a maximum of 6 online courses during your program and must be enrolled in at least 1 on-campus course each study period
 - NUR300 Session 4 offering is only available to students admitted in the program in Semester 2
 - Refer to the Managing your progression page for help in understanding your program structure, reviewing your progress and planning remaining courses.

WIL notes

This program includes compulsory placements in settings that require full COVID-19 vaccination.

It is a Queensland Government requirement that students undertaking a placement within a clinical setting are fit tested annually for an approved respirator. Clinical settings include hospitals, residential aged care facilities, residential disability care facilities, prison health services, youth detention health services, community health care settings, and vaccination clinics). If the Fit Testing requirement applies to placement activity within your Program it will appear in your mandatory checks on Sonia Online. In accordance with Australian Standards, you must be clean shaven for your fit test. Facial hair that lies along the sealing surface of a tight-fitting respirator prevents an effective seal. Therefore, it is a requirement that there is no hair growth between the skin and the facepiece sealing surface in order to achieve a fit. At this stage, there is no exemption in Queensland to this requirement for religious or other reasons and USC is unable to waive this requirement.

- Before undertaking clinical placement, students must obtain and maintain a current first aid and CPR certificate, provide evidence of hepatitis B and a number of other immunisations, undergo a criminal history check and obtain a Blue Card. Refer to

clinical placement details

for more information.
