

# Bachelor of Nutrition

Moreton Bay, Semester 1 2023

## Program structure

Introductory courses (7) 84 units

LFS103 Introductory Bioscience  
LFS112 Human Physiology  
NUT101 Introduction to Nutrition  
NUT102 Food in Society  
PUB112 Public Health Foundations  
SCI105 Introductory Chemistry  
SCI110 Science Research Methods

Developing courses (6) 72 units

LFS203 Integrated Physiology  
LFS251 Biochemistry  
NUT201 Food Studies  
NUT205 Public Health Nutrition  
NUT212 Principles of Nutrition  
NUT232 Nutritional Biochemistry

Graduate courses (6) 60 units

NUT300 Nutrition for Health and Exercise  
NUT303 Food, Nutrition and Menu Design  
NUT304 Nutrition Practicum  
NUT305 Food and the Consumer  
NUT306 Nutrition Communication(6 units)  
NUT307 Nutrition Education(6 units)

PLUS select 1 minor (48 units) from:

Exercise and Sport  
Indigenous Health and Wellbeing  
Public Health Nutrition  
Social Media  
Sustainability

\*With the approval of the Program Coordinator, students may replace a minor with a study component deemed to be equivalent commenced or completed at another university or comparable tertiary institution.

Required courses from a specified list:

Select a total of 12 units from:

LFS303 Pathophysiology  
NUT333 Health Research Design  
SWK251 Working with First Nations Peoples and Multicultural Communities

Students seeking entry into the Master of Dietetics (Sports Nutrition) will need to select NUT333

Required courses from a specified list:

Select a total of 12 units from:

[usc.edu.au/sc354](http://usc.edu.au/sc354)

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 26 April 2024  
Study options and teaching period of offer can vary depending on the study location. For full details, visit [usc.edu.au](http://usc.edu.au).

PUB205 Food Safety Laws and Regulations  
PUB272 Healthy Public Policy and Advocacy  
SPX211 Exercise Physiology I

Note: Program structures are subject to change. Not all UniSC courses are available on every UniSC campus.

Total units: 288

## Study sequence

### Year 1

#### Semester 1

| COURSE                           | SEMESTER OF OFFER<br>(MORETON BAY) | UNITS | REQUISITES   |
|----------------------------------|------------------------------------|-------|--|
| LFS103 Introductory Bioscience   | • Semester 1, Semester 2           | 12    | Pre:<br>The online course offering is not available to students enrolled in a Bachelor of Nursing or Bachelor of Midwifery due to external accreditation.<br><br>Anti:<br>LFS100 |
| NUT101 Introduction to Nutrition | • Semester 1                       | 12    | Pre:<br>Enrolled in Program SC019, SC354 or AB101  |
| SCI105 Introductory Chemistry    | • Semester 1, Semester 2           | 12    | Anti:<br>SCI505  |
| SCI110 Science Research Methods  | • Semester 1, Semester 2           | 12    | Anti:<br>SCI201 or CPH261  |

#### Semester 2

| COURSE                           | SEMESTER OF OFFER<br>(MORETON BAY) | UNITS | REQUISITES                          |
|----------------------------------|------------------------------------|-------|-------------------------------------|
| LFS112 Human Physiology          | • Semester 2                       | 12    | Anti:<br>LFS201 or LFS202 or LFS203 |

## Program requirements and notes

In order to graduate you must:

- Successfully complete 288 units as outlined in the Program Structure
- Complete no more than 10 introductory level (100 coded) courses

Program notes

- Completing this program within the specified (full-time) duration is based on studying 48 unit points per semester (normally 4 courses) and following the recommended study sequence
- The unit value of all courses is 12 units unless otherwise specified
- It is each students responsibility to enrol correctly according to your course requisites, program rules and requirements and be aware of the academic calendar dates
- Courses within this program are assessed using a variety of assessment methods which may include essays, seminar presentations, reports, in-class tests and examinations
- As part of your UniSC program, you may apply to Study Overseas to undertake courses with an overseas higher education provider
- Only a full-time study option is available to international students on a Student Visa
- Refer to the Managing your progression page for help in understanding your program structure, reviewing your progress and planning remaining courses.
- The Exercise and Sport minor, Public Health Nutrition minor and Indigenous Health Wellbeing Minor will be progressively rolled out at Moreton Bay (offered fully in 2025).
- Students undertaking the Exercise and Sport Minor must complete SPX211 from the required discipline select from list in program.
- Students who wish to apply for entry into the Masters of Dietetics (Sports Nutrition) will need to complete NUT333 Health Research Design and SPX211 Exercise Physiology I from the required discipline select from lists in program. It is highly recommended that students also select Exercise and Sport Minor.

WIL notes

- This program includes placements in settings that may require COVID-19 vaccination with limited placement in setting that do not require full vaccination.

[usc.edu.au/sc354](http://usc.edu.au/sc354)

University of the Sunshine Coast | CRICOS Provider Number: 01595D | Correct as at 26 April 2024

Study options and teaching period of offer can vary depending on the study location. For full details, visit [usc.edu.au](http://usc.edu.au).

- It is a Queensland Government requirement that students undertaking a placement within a clinical setting are fit tested annually for an approved respirator. Clinical settings include hospitals, residential aged care facilities, residential disability care facilities, prison health services, youth detention health services, community health care settings, and vaccination clinics). If the Fit Testing requirement applies to placement activity within your Program it will appear in your mandatory checks on Sonia Online. In accordance with Australian Standards, you must be clean shaven for your fit test. Facial hair that lies along the sealing surface of a tight-fitting respirator prevents an effective seal. Therefore, it is a requirement that there is no hair growth between the skin and the facepiece sealing surface in order to achieve a fit. At this stage, there is no exemption in Queensland to this requirement for religious or other reasons and USC is unable to waive this requirement.
- For more information on mandatory requirements refer to Nutrition - Placement
