Semester 1, Semester 2

Plan better neighbourhoods and communities of all kinds for our next generation. A career in urban design and town planning enables you to plan, design and shape good places for people to live, work, learn and play. This is not just a planning degree.

In this program you will:

- Manage urban growth and plan for sustainable development, infrastructure and services
- Choose a specialisation such as environmental management or geospatial analysis
- Get hands-on experience through practical projects each year and learn how to use data for better urban design and town planning decision-making
- Put theory into practice, make connections in the industry and impress potential employers
- Undertake a five-week industry placement in local government, state government, planning consultancies, non-government or environmental organisations
- Graduate with a degree qualification that is accredited by the Planning Institute of Australia and recognised Australia wide
