

Graduate Certificate in Cyber Forensics

LOCATION

START

Online

Semester 1

Become a cyber forensics specialist. In this program, you'll build on your knowledge of ICT and cyber environments and become knowledgeable in computer forensics. Designed by industry experts, you'll learn across a range of digital applications and be exposed to contemporary cyber scenarios.

In this program you will:

- Understand the legal and ethical issues associated with cyber forensics and investigations
- Develop relevant, specialist knowledge and skills across a range of digital applications and cyber scenarios
- Develop competencies within a holistic framework of professionalism, collaboration and critical self-reflective practice

Career opportunities

- Digital evidence practitioner
- Computer forensics specialist
