## Program structure

A Higher Degree by Research (HDR) is a supervised research program that requires undertaking original research, resulting in a thesis, or a thesis and exegesis.

During the Master by Research program, Master by Research candidates are required to achieve several milestones that relate to their research training.

Milestones are program requirements and periodic assessments of candidature progression. Milestones are distributed throughout HDR candidature providing structure and mechanism for regular review and feedback on progress towards both the research project and attainment of the University's Research Graduate Attributes.

In addition to HDR program milestones, some candidates may also have:

- project milestones (such as external progress reports to third party funding providers) that they are required to contribute to; and
- scholarship conditions as specified in their scholarship conditions document

Information on HDR milestones is available in the USC Higher Degree by Research Candidature Progression - Guidelines.
