Master of Nursing (Clinical Leadership)

If you are a degree-qualified nurse who is eligible to register (Division 1), this master's program equips you with the skills and knowledge you need to shape the development and delivery of healthcare services.

In this degree you will:

- Choose to specialise in acute and emergency care, community and primary healthcare, clinical practice education, or paediatric and child health
- Prepare for clinical leadership, research and advanced practice roles
- Participate in continuing professional development

This degree is delivered in blended mode using a combination of online and on-campus learning, and can be completed entirely online by domestic students (subject to course availability).

Note: Students who have completed four courses may choose to exit the master's program, and may be awarded a Graduate Certificate in Nursing. Students must have completed all the requirements of the Graduate Certificate in Nursing to be awarded this program.

Admission requirements

Applicants are required to have successfully completed a Bachelor qualification (AQF level 7) in nursing from a recognised tertiary education provider. Applicants who are Registered Nurses registered in Australia with the Australian Health Practitioner Regulation

Agency (AHPRA) who do not have a Bachelor qualification may be considered for admission based on extensive industry experience and will require approval by the Program Leader.

The Master of Nursing (Clinical Leadership) offers a limited number of Commonwealth Supported Places (CSP) as well as domestic fee paying places. Offers for both CSP and fee paying places will be made after the application due date for the program.

CSP will be allocated on the basis of your Grade Point Average in the degree used to meet admission requirements and/or your industry experience. Applicants falling below the demand-driven cut-off for a CSP may be offered a domestic fee paying place subject to capacity limitations.

Australian citizens, New Zealand citizens and permanent visa holders enrolled in a fee paying place will have the option of applying for a CSP in subsequent semesters if one becomes available. In these cases, the student's current GPA in the Master of Nursing (Clinical Leadership) will be used to assess eligibility for a CSP place using the same entry cut-off applied for new CPS entrants during that admission period.

International students on a Student visa must demonstrate English language skills at an IELTS level of 7 with no subtest less than 7 or equivalent. Refer to the University's English language requirements.
